DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-4 and 7-12, drawn to an elongated law enforcement tool with a flashlight classified in class 362, subclass 102.
- II. Claims 5,6, and 13, drawn to a law enforcement tool with an electrical discharge, classified in class 361, subclass 232.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions of Group I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention of Group II has separate utility such as stun gun.

See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Information Disclosure Statement

4. The information disclosure statement filed 2/10/04 fails to comply with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609 because the patent or publication date of the patent document cited must be displayed in either a MM/YYYY or MM/DD/YYYY date format so that one knows whether the year is "1802, 1902, or 2002". It has been placed in the application file, but the information referred to therein has not been considered as to the merits. Applicant is advised that the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609.05(a).
